Pursuant to 220 C.M.R. § 1.06 (6)(c), the Department of Telecommunications and Energy ("Department") submits to Cambridge Electric Light Company ("Cambridge") its Second Set of Information Requests.

Requests

- DTE 2-1 Refer to Exhibits CAM-HCL-2 and CAM-HCL-3. Please explain any adjustments to the transmission rate for all rate classes. See, e.g., R-6 and G-3. Provide bill impact analyses for those classes with transmission rate adjustments, assuming zero adjustment to that charge, but all other adjustments requested in this filing. Be sure to use all known and measurable rates and charges as of July 1, 2005, for the proposed section of the analyses. Provide these documents in Microsoft Excel format, with all formulas and links contained in the cells.
- DTE 2-2 Refer to Exhibits CAM-HCL-2 and CAM-HCL-3. Please provide a list of any rate adjustments not noted in the cover letter or in any responses to discovery thus far. Provide an explanation for any such adjustment, and note the affected rate classes.
- DTE 2-3 Refer to Exhibit CAM-CMV-1, all versions, and Cambridge's response to DTE 1-1. Please identify by citation and explain any rule, regulation or other authority or principle that prevents Cambridge from carrying the underrecovery of transition costs past 2006.
